ABOUT US

With a legacy spanning 20 years, Harmony and Keen epitomizes a tradition of excellence in crafting bespoke cabinetry. Our journey began with the vision of our founder Mr. Hung Chan, who established our first cabinet company. Our dedication to providing an unmatched experience for our customers is the driving force behind everything we do. We have been a full service provider to builders, remodelers and the general public for nearly 20 years. We take pride in being the only company in the region that designs, manufactures, and wholesales products for contractors and more.

We also provide full product lines for kitchen and bathroom products, such as granite or marble countertops, high-end faucets and othe accessories. However, our expertise is not only limited to kitchens and bathrooms. We also provide bespoke services for any space in the house, ranging from offices, closets, family rooms, home offices or mudrooms. Our exquisite craftsmanship elevates every space and gets you one step closer to your dream home. Experience the excellence and quality that you deserve, today.
